FEMA L0969 NIMS ICS All-Hazards Communications Unit Leader (COML) Course

**February 21, 1022 – February 24, 2022
Trussville Civic Center - Trussville, AL**

The Alabama Emergency Management Agency along with its partners at the Federal Emergency Management Agency and Alabama Telecommunicators Emergency Response Taskforce presents the All-Hazards Communications Unit Leader (COML) position specific training opportunity. Please carefully review the information below and mark your calendar to attend this in-person training.

We look forward to your participation. Thank you.

Course Overview:

The COML Course is a four (4) day class. This curriculum trains emergency responders on practices and procedures used to manage the Communications Unit in an ICS structure at an All Hazards Event. COML responsibilities at an incident might include developing plans for the effective use of incident communications equipment and facilities, managing the distribution of communications equipment to incident personnel, and coordinating the installation and testing of communications equipment. The COML will supervise other members of the Communications Unit, such as the Communications Technician (COMT), Incident Tactical Dispatcher (INTD), and Incident Communications Center Manager (INCM), if those positions are filled during an incident. The class is presented with facilitated lecture and student exercises. There is adequate time built into the class to facilitate interactive discussions and hands-on training.

Target Audience:

This curriculum trains emergency responders on practices and procedures used to manage the Communications Unit in an ICS structure at an All Hazards Event. The COML class is targeted for all local, regional, state and federal cross disciplinary emergency response professionals and coordination/support personnel with a communications background. Candidates for COML training should have knowledge of the following: local communications processes and technologies; available communications systems; and regional, State, and local communications plans. Training should be taken by all public safety communications experts involved in any of the following activities: developing plans for the effective use of existing incident communications equipment, facilities, policies, and procedures; managing the distribution of communications equipment to incident personnel; and coordinating the installation and testing of communications equipment. An application and prerequisites certification is required prior to attending the course.
